

# Creating ARIN user account

This page will detail how to create an ARIN user account! To do so, you will need to go [here](#) and fill out the sign-up form.

First line is email, put whatever email you like, though a lot of people tend to use a generic NOC email for there domain, like [noc@beako.net](mailto:noc@beako.net), with the domain being yours.

next is username, pick whatever you like for this!

password and confirm password is self explanatory, just fill in a password, DO MAKE THIS A GOOD ONE, as it's the keys to your entire ARIN account and any resources you are given.

The two challenge questions are security questions, fill in your questions and answers then click submit. You should get an email from ARIN asking you to confirm your email, and then you have an arin account!

\* denotes required field

\*Email:

Must be an individual email address, not a role or group account.

\*Username:

Minimum of six characters. Username is case sensitive.

Your new password must be 12 to 64 characters long and cannot contain your username or the word "arin".

\*New Password:  

- ✓ Meets length requirement (12 to 64 characters)
- ✓ Does not contain your username or the word 'arin'
- ➔ Need help? [Generate a password.](#)

\*Confirm New Password:  

✓ Passwords match

## Challenge Questions

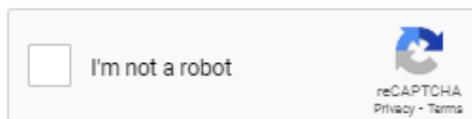

If you request help later with your username, password, or two-factor authentication, your answers are used in confirming your identity.

\*Challenge Question 1:  

\*Your Answer:

\*Challenge Question 2:  

\*Your Answer:

Revision #2
