

Route48

Route48 is a free service that provides PA IPv6 address space, to anyone signing up with a valid reason. You **must** sign up with your real name and email or you will be banned. You can obtain up to 5 /44s of IPv6 address space, and you can ask for more provided you have a valid reason for it. You can sign up [here!](#)

Route48 also has a discord server which you can join by going to [this link!](#)

Tunneling services are also provided, with many locations also allowing BGP sessions from your own ASN.
