# Home

Hi, and welcome to betterdocs/beako learn! This page is dedicated to creating a better knowledgebase and index of networking, technology and the terms around it! This site is still rather new, and as a result still has a lot of work to be done before it's truly a central knowledgebase for all types of technology/networking questions! Please share it, and if you want to help, drop an email to help@betterdocs.pro!

System notice/PSA - For your own safety, and the safety of your identity to those seeking ASNs. Please DO NOT use August internet for ASN registrations or any other services. They have a history of scamming people, stealing identity documents, ignoring proper proceedures and leaking private information of anyone he dislikes. Avoid him at all costs.

Similarly, if there is an issue, write to that email, thanks!

You can get to the main page here!

Want to donate? Wow thanks!!! You can do that here!
