

# Role/Maintainer pair

To create a role/Maintainer pair, please [go here](#) and fill out the form.

First, you need to pick a name for your maintainer, it can be anything, but it needs to end in -MNT for it to be valid. After doing this, you will also need to create a name for your role, this can also be whatever you choose, though it's common for it to be your network name followed by NOC. You can also create a person instead, should you so choose.

Next, fill out your address and email. I would recommend getting a PO box or alternate mail address, as **THIS IS PUBLIC INFORMATION**. Once you've filled out this form, click submit and you now have a role and maintainer pair!

## Create role and maintainer pair

mntner	
<input type="text" value="anyaforger-MNT"/>	
role	
<input type="text" value="Anya NOC"/>	
Switch to <a href="#">person</a>	
address	
<input type="text" value="100 Rose Road, Sydney NSW, 1001 AU"/>	
e-mail	
<input type="text" value="anyanoc@beako.net"/>	

By submitting this form you explicitly express your agreement with the [RIPE Database Terms and Conditions](#)
